

CBOT CM400

Multi-coin operated control unit for photocopiers

www.rdtoffice.ro

THE CM4000 ADVANTAGES

Flexibility, simplicity, robustness make it ideal for the sale of self-service photocopying.

Allows 2 levels of rates.

Gives clear information of the remaining credit to the customer.

Supports 8 different coins.

Supplied with a key allowing free copies.

Standard printer link for printing of selling statistics.

Manages up to 4 copy formats (A4 / A3 / B&W / color) usable on adapted copiers only.

Can be installed either on the copier front face or on an optional pedestal (see overleaf).

Operation

Inserting coins causes money credit then the number of copies to be displayed.

Copies are taken by pressing the "copy" key on the copier (if the credit is sufficient).

The digital display counts each copy made.

It is not necessary to insert coins at each copy

Multi-coin operated control unit for photocopiers

Designed to be connected on all brands of copiers, the versatility of the CM4000 assures you a profitable and flexible investment regardless of the choice of equipment's.

The CM4000 coin mechanism will facilitate the profitability of your copying equipment by its reliability in intensive self-service use.

Setting prices and statistics

The CM4000 has programming keys allowing the selling prices of the copy formats to be set, and possibly decreasing tariffs.

The sales statistics are also accessible by the programming keys and displayed (or printed by means of the optional printer):

- the total turnover,
- the number of copies for each format,
- the selling prices.

Specifications

Dimensions

↕ Height 380mm

↔ Width 280mm

↗ Depth 100mm

Optional

Cover for cash box

8 characters LED Display

OPTIONAL Pedestal

The CM4000 pedestal is an interesting optional equipment as it enables the coin mechanism to be perfectly steady, at the correct height and the best place.

Thanks to this equipment independent of the copier, the technician will have an easier installation as well as a better accessibility for copier service.

CM4000 fitted with a pedestal (height 80 cm).
